K.S.A. 79-1460a RESULTS OF  
MARKET STUDY ANALYSIS FOR  
CHASE COUNTY  
FOR THE ASSESSMENT YEAR 2022  
PURSUANT TO L.1919, CH 279, 2

Annually, at least ten business days prior to the mailing of change of value notices pursuant to K.S.A. 79-1460, and amendments thereto, the county or district appraiser shall cause to be published in the official county newspaper the results of the market study analysis as prescribed by the Director of Property Valuation of the Department of Revenue.

A study of the residential (R) real estate market indicates that market values have trended upward for this valuation year. Market values have increased approximately by 10% within a broad range of 5% to 15%.

A study of the vacant (V) property real estate market indicated that the market is stable with no general upward or downward trend.

A study of the commercial/industrial (C) real estate market indicated that market values have remained stable. Trends are more difficult to ascertain due to variance of structures and limited sales activity.

Values on specific properties may not follow indicated trends because of changes in the property, correction of descriptive data or adjustment of value based on sales of similar properties. Some properties may increase at a greater rate; some properties may decrease or change in valuation only slightly. All real property owners will be notified of the county appraiser's estimate of value on or prior to March 1st of this year. The appeal period extends to thirty days from the mailing date.

In accordance with the provisions in K.S.A. 79-1476, the Division of Property Valuation is required to annually furnish each county the results of its study relating to changes, if any, of the use value of agricultural land. Changes can and do occur as a result of several factors including cropping practices, commodity prices and production costs.

The Division of Property Valuation and Kansas State University establish current agricultural land values. Chase County will implement the agricultural land values as provided by the Division of Property Valuation. These values are available for review within the County Appraiser's office.
